

Continuous Form Check Signer

EDP 2000

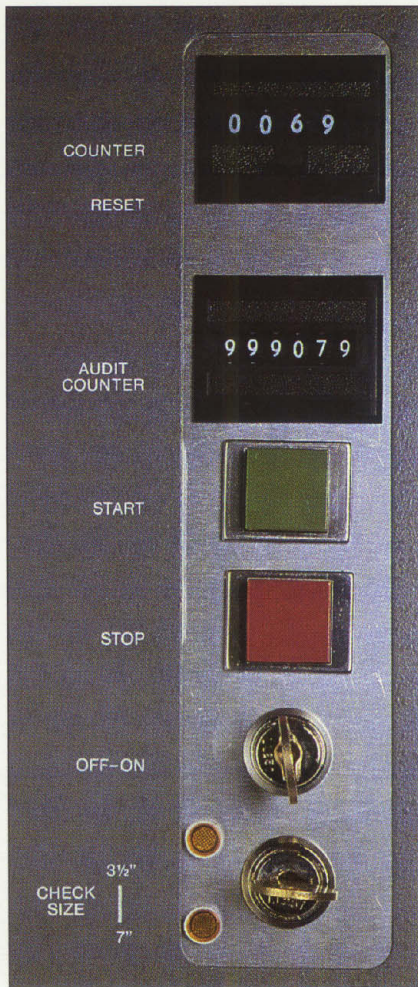

HEDMAN®

Security Since 1914

Makes Great Impressions!

EDP 2000 – Signature of Excellence!

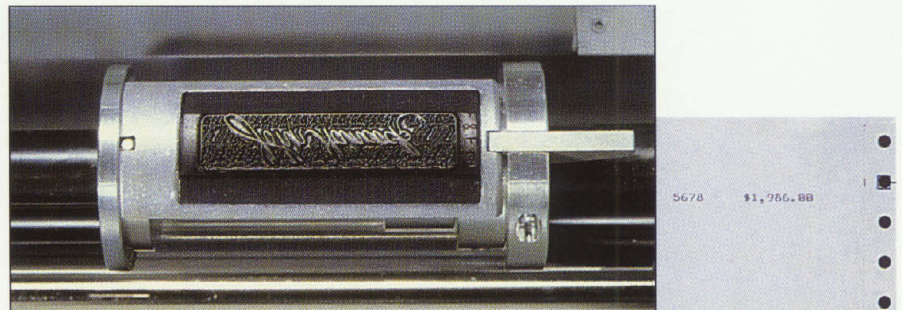

DEPENDABLE SECURITY

- Dual key/lock controls provide maximum control over the imprinting function.
- Signature Cover lock guards against unauthorized usage.
- Non-resettable display audit counter keeps an accurate running count of all processed checks.
- Resettable batch counter automatically counts each signed check for accurate batch totals.
- Optional tri-color ink rolls provide added security to each impression.
- All metal construction.
- Tamper proof screws

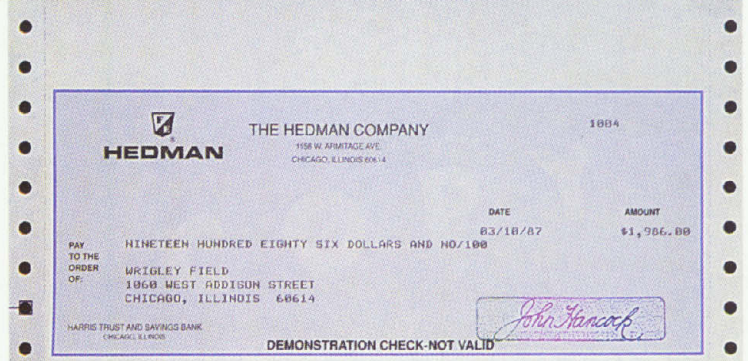

EASE OF OPERATION

- Transports keep continuous form checks securely aligned.
- Signs 240 checks a minute, counts, stacks and secures them in one easy process.
- Imprint plate loading is made easy by Hedman's exclusive latch-load plate holder.
- Automatic alignment feature assures accurate imprint location.

FLEXIBILITY

- Easily adapts to checks in various weights with vouchers on the top, bottom or side.
- Signature selector has a lock in position for 3 1/2" conventional checks or for 7" voucher style check signing.
- Side by side dual signature system is available.
- A variety of imprint designs can be utilized ranging from signatures to seals with an assortment of backgrounds and text for any application.
