Are you currently using preprinted continuous form or cut sheet check stock in a dot-matrix or laser printer environment?
It's time to take control! It's time for **WYCOM**. A leader since 1986,
WYCOM offers the simplest, most efficient and secure computer check printing solutions in the industry.

How Simple?

With WYCOM's latest technology, it's as easy as **1-2-3.**

WYCOM utilizes a custom, factory programmed, external peripheral to interface between your computer and printer.

And WYCOM works with your existing accounting application.

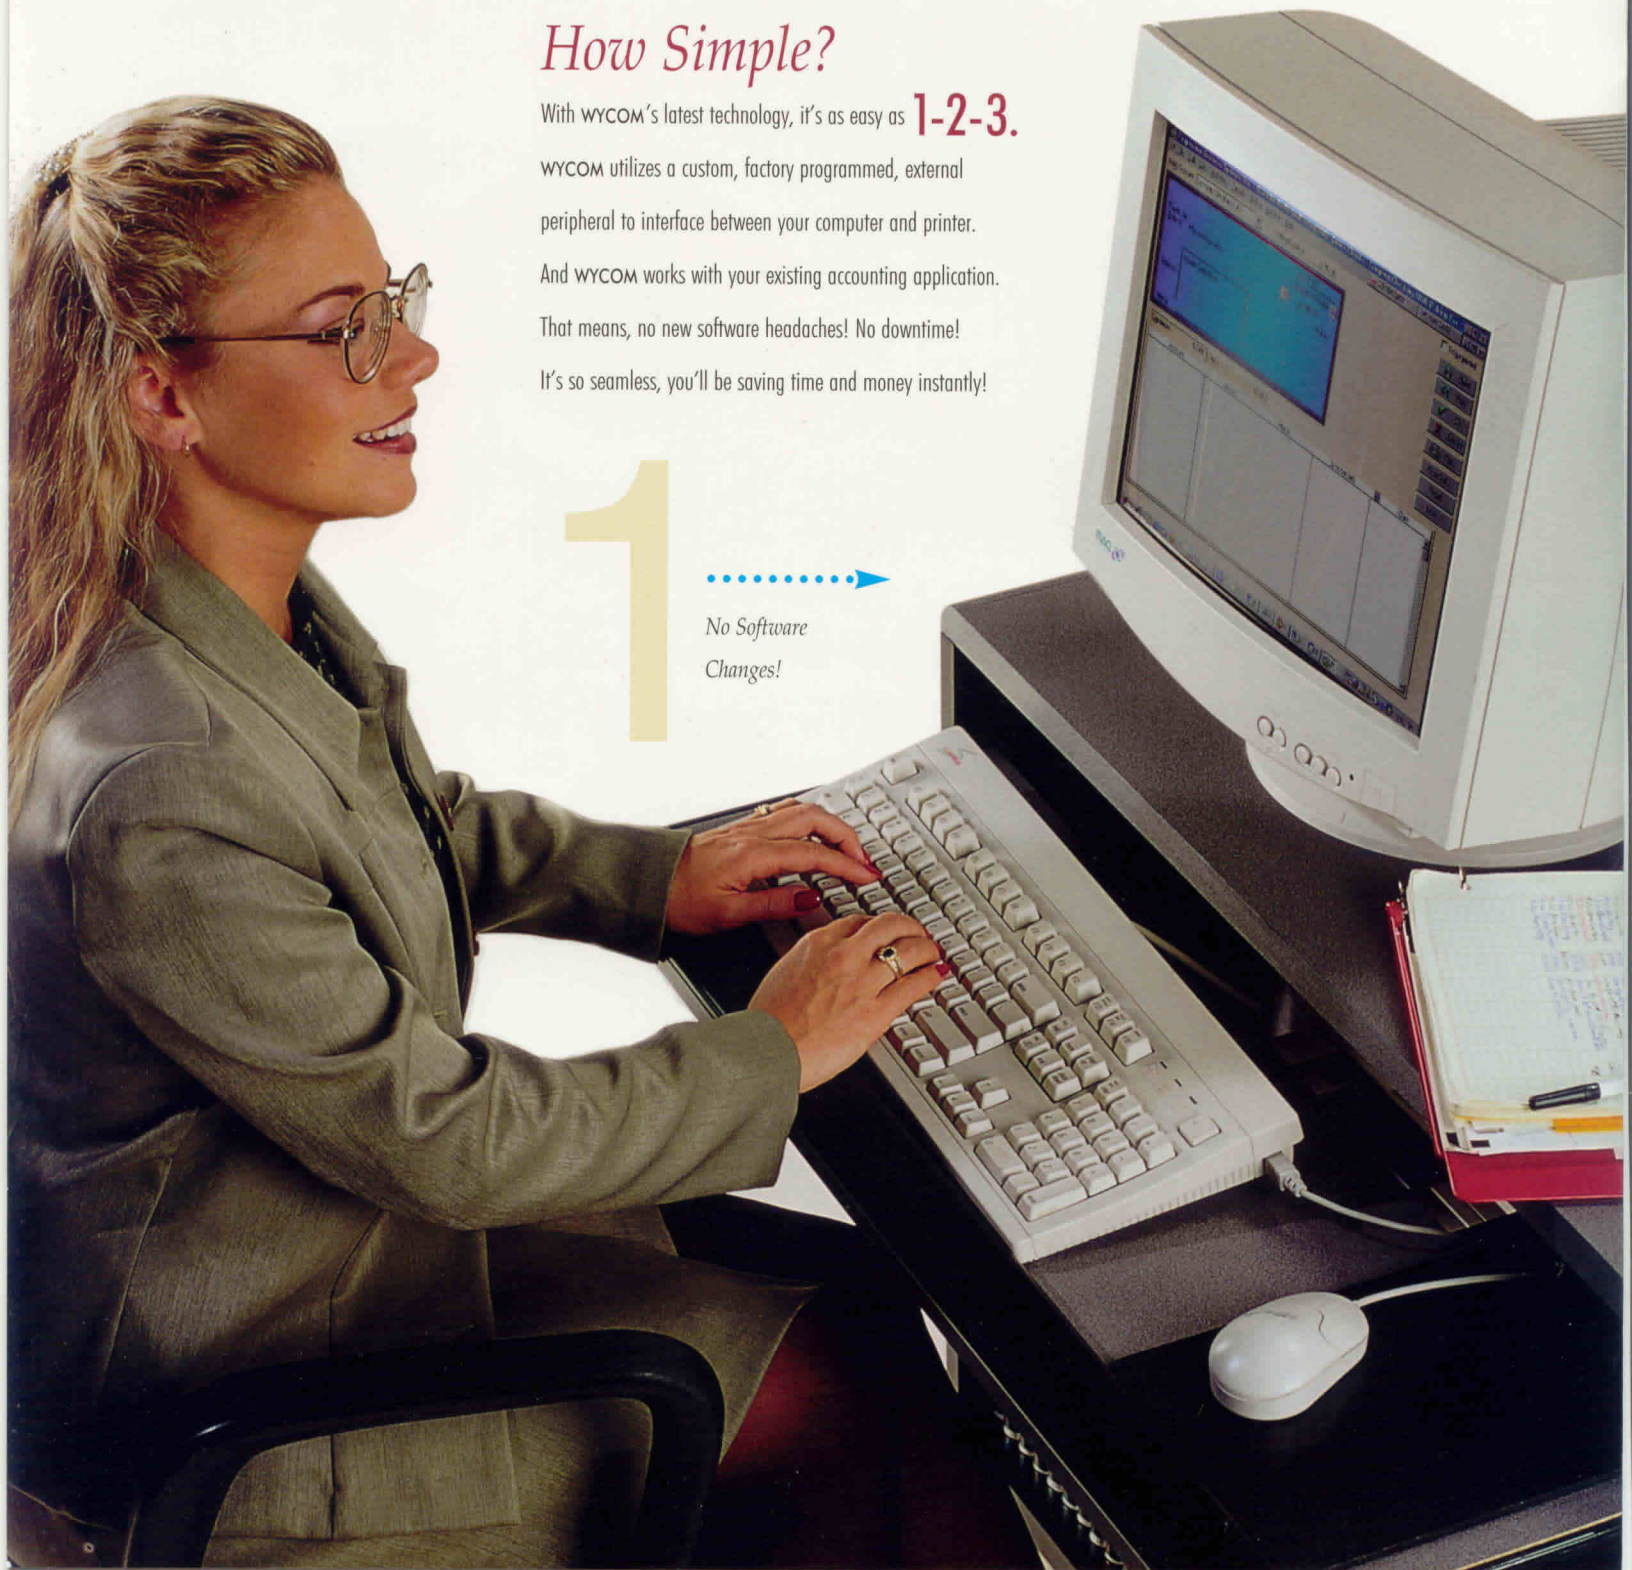

That means, no new software headaches! No downtime!

It's so seamless, you'll be saving time and money instantly!

1

No Software
Changes!

Without the proper precautions —

ANYBODY!

Laser Check Printing

Step up to the WYCOM/Elite MICR upgrade and say good-bye to the wasted time and money required with cumbersome and expensive preprinted inventory. From the accounting software on your computer, through the Elite, to a laser printer using the proper MICR toner, completely blank security check stock can be transformed into fully printed checks — including banking information, corporate logos, graphics, amounts, signatures and a full MICR line for the bank! ALL IN ONE OPERATION! Changing bank accounts or incorporating new forms or signatures? No problem! Additions are as simple as contacting your Wycom representative.
